

Cryo-SEM Awareness Seminar

4-5 March 2003 at Jeol UK, Welwyn Garden City, Herts.

*Have you heard about Cryo-SEM but never tried it?
Does your lab have a Cryo-SEM capability which you don't use?
Would you like to refresh your experience and understanding of Cryo-SEM?
Would you like to interact with other Cryo-SEM users?
Would you like to learn how Cryo-SEM can be used in biological, medical, industrial and materials work?
Would you like to discover how Cryo-SEM can complement variable pressure or environmental SEM examinations?*

One or more "yes" answers?

>>>> Come to CRYO-SEM AWARENESS 2003

This is a two day short course / meeting, for current, former and potential users of Cryo-SEM. There will be a mixture of lectures, contributed talks and practical demonstrations, covering Cryo- for FEG-SEM and Conventional / VP SEM.

There is also the opportunity to book individual in-depth microscope access sessions during the rest of March.

Day 1 (Tue 4th March)
1030 – Registration
1100 – 1700 lectures, talks and demonstrations

Day 2 (Wed 5th March)
0900-1300 lectures talks and demonstrations
1300 – End of formal course
1300-1700 – Microscopes and staff available for informal work
